COMPANY PROFILE

公司简介

温州德裕机械有限公司是一家集设计、制造和销售为一体的专业制鞋设备制造商。主要生产单色、双色、三色、四色及混色圆盘注射成型机系列、双色圆盘注射成型机系列、TR/TPU圆盘式及立式注射成型机系列、TRB单色、双色圆盘式注射系列、伺服系列等。产品技术含量高，制造工艺独特，质量稳定可靠，在制鞋行业声誉卓著，是国内许多制鞋厂和鞋材厂的主要或独家配套供应商。公司拥有一批经验丰富，精力充沛，具有一流自主开发水平的专业技术队伍，目前公司生产的产品大部分获得专利。雄厚的技术实力受到了许多国外知名制鞋企业的青睐。公司还拥有一个精诚团结、吃苦耐劳，诚信务实、朝气蓬勃、开拓进取的营销和服务队伍。公司始终如一贯彻的核心理念是品质，并将品质融入企业运行的每一环节，赋予现实的表现。公司导入质量运行体系，进行科学管理，信任员工的努力和奉献，尊重员工的劳动和权利，为员工创造良好的工作环境和发展平台；金工、冲压、装配等生产流水线齐全，检测手段完善，从而确保了较大的生产能力和产品质量的稳定可靠，努力为客户提供高质量的专业化产品和服务，以真诚和精品赢得他们的尊重和信赖。

公司将一如既往地以最优质的鞋机设备奉献于鞋行业，致力于使我们成为产业的领导者和顾客首选的业务配套与合作伙伴，致力打造成业内一流的鞋机品牌。

Wenzhou Deyu Machinery Co., Ltd. is located in the famous shoes city wenzhou,shanghai industry area.Our enterprise is specialized in producing automatic soles injection moulding machines and other shoe making machines.As a high-tech company,Deyu Machinery has professional engineers and skilled workers focus on researching and developing high quality,reliable shoe-making machines for more than 15 years. "Maximize value for customer,provide most considerate service for customer" is our enterprise purpose.

Deyu Machinery is strict in quality management.In our multi-varieties and continuous mass production,the strict quality system is vital for stable quality of products.We have many patents for our machines and core technology.Our diversified products have been issued national production licence and certificate of competency,and have been passed the ISO9001:2000 quality certification system and CE certificate of Europe.

Our machines enjoy high reputation in domestic market and foreign market. Many famous local shoes companies or shoes accessories companies select or specified using our machine for ensuring the quality of final products.Now we also enlarge our customers to Brazil,Argentina,Mexico,Colombia,Russia,Turkey,Morocco,India,Pakistan,Iran,Bangladesh,Vietnam,Egypt,Nigeria and Cote d'Ivoire.

Our company has a professional,dedicated sales team to provide excellent service.Customer satisfaction and benefit is our prime consideration.Deyu Machinery sincerely looking forward to establishing and deepening cooperation with new and old customers!

Welcome to enquiry and contact with us!

装配车间

资质与荣誉只是对我们能力的一种认可，
而我们还在不断追求.....

Qualification and honor present a recognition of professional competence.
But we are longing for.....

DY-1102H

全自动两工位（V型）滑板塑胶鞋底注射成型机

Full Automatic Two Position (V Block) Slide Plastic Rubber Soles Injection Moulding Machine

主要特点

- 专门生产热塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡之鞋底，射出成型。
- 全自动电脑程序控制操作，不须专业人员即可胜任，节省人力及时间。噪声小、低转速高扭力油压马达驱动，无极变速压力特强。
- 螺杆采用特殊结构设计，射出量精确，产品质量稳定，并以电脑数字自动控制多站压力设压，可分2种不同份量射出成型。
- 采用节能伺服系统，节约用电量为30%以上。

FEATURES

- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker/lower noise/use low rotating speed and high torque hydraulic motor, with powerful stepless speed change.
- The screw adopts special structural design, with accurate injection volume and stable product quality, and uses digital computer to automatically control multi-station pressure setting, which can be separately adjusted among stations.
- The energy-saving servo system can save electric power over 30% rather than the traditional equipment.

详细参数:

机器型号/Machine model		DY-1102H		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据Date		
螺杆直径	Injecting Screw Diameter	mm	Φ55		
注射容量	Max.injecting Capacity	cm3/shot	470		
夹模力	Mold Clamping Force	ton	150		
射出压力	Max.injecting Pressure	kg/cm2	1050		
生产量	Productivity Per Hour	pair/h	170		
容模数	Work Station	station	2		
容模尺寸	Mould Dimension	mm	500*360*180		
总功率	Total Power	kw	33		
机械尺寸	Machine Dimension(L*W*H)	m	3.9*2*2.5		
机械重量	Machine weight	ton	8		
用油量	Oil Capacity	L	450		

DY-1106TR/TPU

全自动立式六工位水冷单色塑胶鞋底注射成型机

Fully Automatic Vertical Six Station Water Cooling One Color Plastic Rubber Soles Injection Moulding Machine

主要特点

- 专门生产热塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡之鞋底射出成型底；
- 全自动电脑程序控制操作，不须专业人员即可胜任，噪声小、低转速高扭力油压马达驱动，无极变速等压力特强；
- 采用自动开关模机械手设置，降低劳动强度，同时降低员工配置要求，可使用女工或老年工，减少人工成本；
- 采用中央水冷装置，冷却时间快；
- 整体式结构设计，占地少；
- 生产量每小时80~120双；
- 采用节能伺服系统，节约电量约为30%以上；
- 大合模力，专门针对一模、一双模具。

FEATURES

- Applied in producing soles with thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker/ lower noise/ use low rotating speed and high torque hydraulic motor,with powerful stepless speed change.
- Robotic arm equipped in automatic opening & clamping mould device can save labor force and decrease the requirement of worker. For female and old worker can operate the machine.
- The central cooling device has good cooling efficiency.
- Compact structure design, less space required.
- The production output is about 80~120 pairs/h.
- Strong clamping force,specifically for once, a paie of molds.

详细参数:

机器型号/Machine model		DY-1106TR/TPU		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据Date		
工位数	Work Station	station	6		
螺杆直径	Injecting Screw Diameter	mm	Φ50		
注射容量	Max.Injecting Capacity	cm3/shot	390		
夹模力	Clamping Force	ton	150		
射出压力	Max.Injecting Pressure	kg/cm2	1300		
生产量	Productivity Per Hour	pair/h	80~120		
容模尺寸	Mould Dimension	mm	500×340×170		
总功率	Total Power	kw	33kw		
机械尺寸	Machine Dimension(L*W*H)	m	2.8×2.1×2.9		
机械重量	Machine Weight	ton	7		
用油量	Oil Capacity	L	500		

DY-2216TR/TPU

全自动圆盘式TR/TPU双色塑胶鞋底注射成型机

Full Automatic Rotary Type Two Color Plastic Rubber Soles Injection Moulding Machine

主要特点

- 专门生产热塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡之鞋底，射出成型。
- 全自动电脑程序控制操作，不须专业人员即可胜任，节省人力及时间。噪声小、低转速高扭力油压马达驱动，无极变速压力特强。
- 螺杆采用特殊结构设计，射出量精确，产品质量稳定，并以电脑数字自动控制多站压力设压，可分16种不同份量射出成型。
- 采用节能伺服系统，节约用电量为30%以上。

FEATURES

- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker/lower noise/use low rotating speed and high torque hydraulic motor, with powerful stepless speed change.
- The screw adopts special structural design, with accurate injection volume and stable product quality, and uses digital computer to automatically control multi-station pressure setting, which can be separately adjusted among stations.
- The energy-saving servo system can save electric power over 30% rather than the traditional equipment.

详细参数:

机器型号/Machine model		DY-2216TR/TPU		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If it Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据data		
工位数	Work Station	station	16		
螺杆直径	Injecting Screw Diameter	mm	2×Φ55		
注射容量	Max.Injecting Capacity	cm³/shot	2×470		
夹模力	Clamping Force	ton	150		
射出压力	Max.Injecting Pressure	kg/cm²	1050		
生产量	Productivity Per Hour	pair/h	60-80		
容模尺寸	Mould Dimension	mm	500×320×170		
总功率	Total Power	kw	60		
机械尺寸	Machine Dimension(L×W×H)	m	9.5×4.5×2.2		
机械重量	Machine Weight	ton	20		
用油量	Oil Capacity	L	800×2		

DY-2212TPU/TR

全自动圆盘式TPU/TR双色塑胶鞋底注射成型机

Full Automatic Rotary Type Two Color Plastic Rubber Soles Injection Moulding Machine

主要特点

- 中心水冷，快速冷却模具；
- 原料方面适用于生产热可塑性塑胶原料 TPU、TPR、TR 及 PVC 塑胶发泡、不发泡类鞋底；
- 全自动电脑程序控制操作、不须专业人员即可胜任，节省人力及时间；
- 本机结构灵巧，重量轻，机架的设计更适合工人操作；
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能；
- 电机油泵外置、散热效果更佳，从而延长机器的使用寿命；
- 150 吨大合模力；

FEATURES

- Water-cooled central system, quick cooling of molds;
- Suitable for producing thermoplastic elastomers TPR, TR, and TPU foam and non-foam shoe soles;
- Fully automated computer program control operation, no specialized personnel required, saving labor and time;
- The machine structure is compact, lightweight, and the frame design is more suitable for worker operation;
- The oil circuit and electrical control are well-matched, reducing waiting time, increasing production speed, improving output, and reducing energy consumption;
- The motor oil pump is external with better heat dissipation, thereby extending the machine's lifespan;
- 150 tons of clamping force;

详细参数:

机器型号/Machine model		DY-2212TPU/TR		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据data		
工位数	Work Station	station	12		
螺杆直径	Injecting Screw Diameter	mm	Φ55/Φ55		
注射容量	Max.Injecting Capacity	cm ³ /shot	500/500		
夹模力	Clamping Force	ton	150		
射出压力	Max.Injecting Pressure	kg/cm ²	1300/1300		
生产量	Productivity Per Hour	pair/h	80-120		
容模尺寸	Mould Dimension	mm	500×340×180		
总功率	Total Power	kw	66		
机械尺寸	Machine Dimension(L×W×H)	m	8×4×2.2		
机械重量	Machine Weight	ton	20		
用油量	Oil Capacity	L	800*2		

DY-150

全自动直立式TR/TPU注射成型机

Automatic Vertical Two Color TR/TPU Injection Moulding Machine

主要特点

- 可产TR/TPR/TPU等多种热塑性材料。
- 直压式合模系统，快速锁模结构。
- 0~90°~180°翻转结构，提供多种生产模式，可生产单色、双色鞋底。
- 模具高度自动调节，容模空间80-200mm。
- 整体式油箱、电控柜、占地面积少、触控人机界面，易于操作。

FEATURES

- Suitable for thermoplastic raw material like TR、TPR and TPU.
- Vertically pressed hydraulic mould-close system,quickly mould-lock system.
- 0~90°~180° turnover structure available with several production modes, for both single and double color soles.
- The mould space can be automatically adjusted between 80-200mm.
- Integrative electric control box and hydraulic system.Touchable screen man-machine interface,making operation convenient.

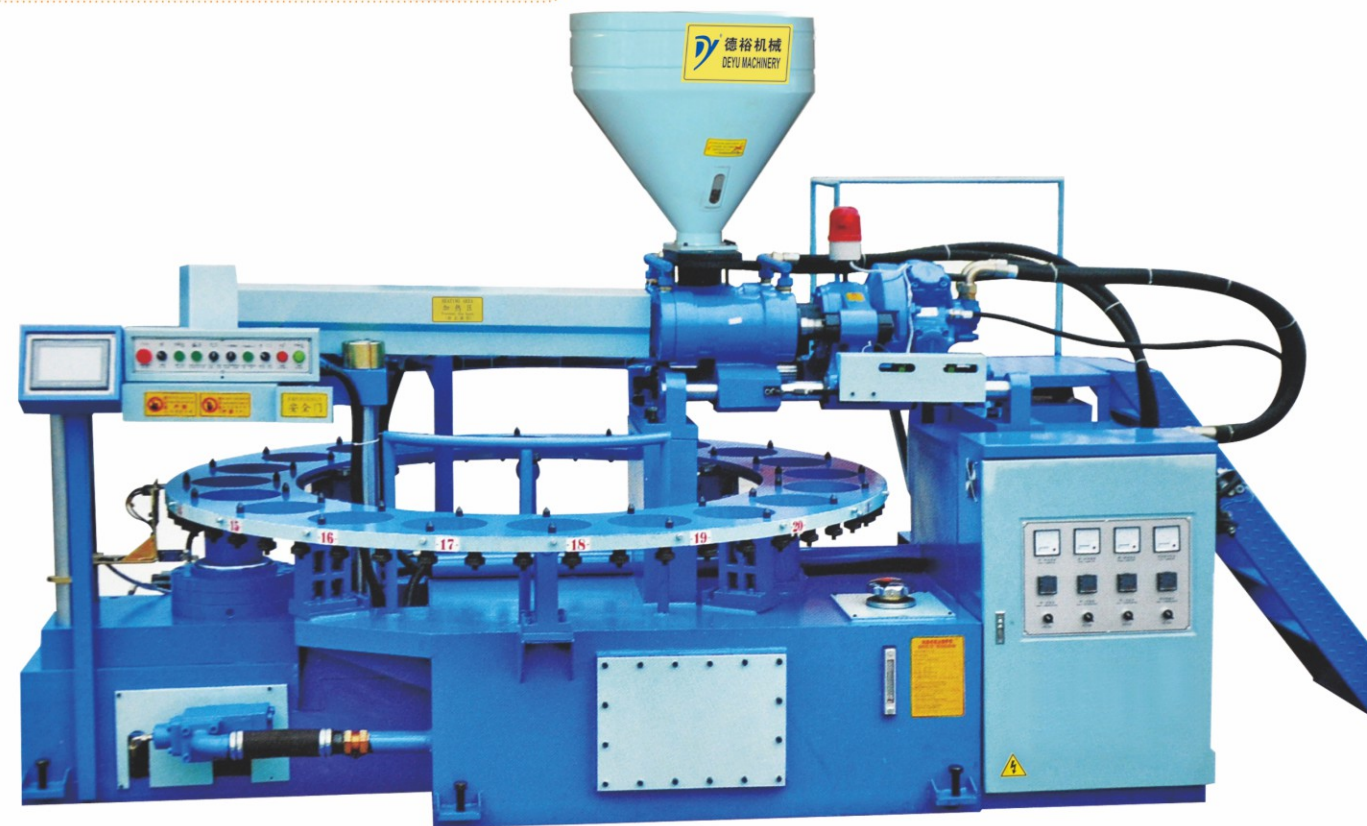

详细参数:

机器型号/Machine model		DY-150		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据data		
螺杆直径	Diameter Of Screw	mm	Φ55×4		
夹模力	Clamping Force	ton	150		
开模行程	Mould-Opening Stroke	mm	370		
容模尺寸	Mould Dimension	mm	480x550		
标准模厚	Thickness Of Mould	mm	80-200		
最大射出量	Injection Cap.(max)	cc	1000		
总功率	Total Power	kw	38		
用油量	Oil Capacity	L	600		
机械尺寸	Machine Dimension(L×W×H)	m	2.2x2.7x2.6		
机器重量	Machine Weight	ton	10		

DY-1120A

全自动圆盘式单色塑胶鞋底注射成型机

Full Automatic Rotary Type One Color Plastic Rubber Soles Injection Moulding Machine

主要特点

- 专门生产热塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡之鞋底，射出成型。
- 全自动电脑程序控制操作，不须专业人员即可胜任，节省人力及时间。噪声小、低转速高扭力油压马达驱动，无极变速压力特强。
- 采用大直径螺杆，原料射出量大，产量高，并以电脑数字自动控制多站压力设压，可分20种不同份量射出成型。
- 其生产量每小时约180双。

FEATURES

- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker/lower noise/use low rotating speed and high torque hydraulic motor, with powerful stepless speed change.
- Use big size screw/ High production capacity/ The injection pressure of different stations can be set by computerized digital controller and 20 different injection volumes can be set.
- The production output is about 180 pair/h.

详细参数:

机器型号/Machine model		DY-1120A		以下数据仅供参考，若因实际需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据Date		
工位数	Work Station	station	20		
螺杆直径	Injecting Screw Diameter	mm	Φ75		
注射容量	Max.Injecting Capacity	cm ³ /shot	880		
夹模力	Clamping Force	ton	55		
射出压力	Max.Injecting Pressure	kg/cm ²	660		
生产量	Productivity Per Hour	pair/h	180		
容模尺寸	Mould Dimension	mm	400×200×160		
总功率	Total Power	kw	33.3		
机械尺寸	Machine Dimension(L×W×H)	m	4.2×2.1×2		
机械重量	Machine Weight	ton	4.2		
用油量	Oil Capacity	L	450		

DY-2220A

全自动圆盘式双色塑胶鞋底注射成型机

Full Automatic Rotary Type Two Color Plastic Rubber Soles Injection Moulding Machine

主要特点

- 专门适于生产制造各类单色、双色运动鞋底，休闲鞋底，男、女鞋底及拖、凉鞋底等。
- 原料方面适于生产热可塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡类。
- 全自动电脑程序控制操作，不须专业人员即可胜任，节省人力及时间。
- 本机结构灵巧，重量轻，机架的设计更适合工人操作。
- 本机液压系统采用高压高流量，使机器的效率更高，性能更可靠。
- 电机油泵外置，散热效果更佳，从而延长机器的使用寿命。
- 其生产量每小时约150双。

FEATURES

- Applied in producing various one/two colors soles of sport shoes, casual shoes, man/woman shoes, sandals etc.
- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The hydraulic system has high pressure and flow, causing better efficiency and more reliable feature.
- The oil pump of the motor is outside placed, causing better cooling effect and longer duration of machine.
- The production output is about 150 pairs/h.

详细参数:

机器型号/Machine model		DY-2220A		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据date		
工位数	Work Station	station	20		
螺杆直径	Injecting Screw Diameter	mm	Φ75Φ65		
注射容量	Max.Injecting Capacity	cm³/shot	880/660		
夹模力	Clamping Force	ton	55		
射出压力	Max Injecting Pressure	kg/cm²	660/890		
生产量	Productivity Per Hour	pair/h	150		
容模尺寸	Mould Dimension	mm	500×320×250		
总功率	Total Power	kw	60		
机械尺寸	Machine Dimension(L×W×H)	m	7.5×5.8×2.2		
机械重量	Machine Weight	ton	12		
用油量	Oil Capacity	L	800×2		

DY-3220C

全自动圆盘式两头三色塑胶鞋底注射成型机

Full Automatic Rotary Type Three Color Plastic Soles Injection Moulding Machine

主要特点

- 专门适于生产制造各类双色、三色童鞋、运动鞋底、休闲鞋底，男、女鞋底及拖、凉鞋底等。
- 原料方面适用于生产热可塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡类。
- 全自动电脑程序控制操作、不须专业人员即可胜任，节省人力及时间。
- 本机结构灵巧，重量轻，机架的设计更适合工人操作。
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能。
- 电机油泵外置、散热效果更佳，从而延长机器的使用寿命。
- 其生产量每小时约220双。

FEATURES

- Applied in producing various two/three colors soles of child's shoes, sport shoes, casual shoes, man/woman shoes, sandals etc.
- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The electronic control system is quick in respond, less waiting time,more production capacity and less energy consumption.
- The oil pump of the motor is outside placed, causing better cooling effect and longer duration of machine.
- The production output is about 220 pairs/h.

详细参数:

机器型号/Machine model		DY-3220C		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据date		
工位数	Work Station	station	12/20		
夹模力	Clamping Force	ton	55/80		
容模尺寸	Mould Dimension	mm	400×320×175		
螺杆直径	Diameter of Screw	mm	Φ65/2× Φ60		
螺杆直径比	Screw L/D Ratio	L/D	21/20		
最大射程	Max.Injection Capacity	mm	195/167		
射出压力	Injection Pressure	MPa	96/72.8		
射出速度	Injection Speed	cm/sec	12.7/16.7		
螺杆转速	Rotating Speed of Screw	r.p.m	0~167		
温控段数	Temperature control	Section	4		
电热功率	Heater Power	kw	9.2/2×6.8		
电机功率	Motor Power	kw	16/16		
总功率	Total Power	kw	54.8		
油箱容量	Oil Tank Volume	L	500/400		
机器重量	Machine Weight	ton	12		
机械尺寸	Machine Dimension(L×W×H)	m	8.6×4.5×2.4		

DY-4212C

全自动圆盘式两头四色塑胶鞋底注射成型机

Full Automatic Rotary Type Four Color Plastic Soles Injection Moulding Machine

主要特点

- 专门适合于生产制造各类双色、三色、四色童鞋、运动鞋底、休闲鞋底、拖鞋及三色、四色混色鞋底；
- 原料方面适用于生产热可塑性塑胶原料PVC、TPR及TPU塑胶发泡、不发泡类；
- 全自动电脑程序控制操作、不须专业人员即可胜任，节省人力及时间；
- 本机结构灵巧，重量轻，机架的设计更适合工人操作；
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能；
- 电机油泵外置、散热效果更佳，从而延长机器的使用寿命；
- 其生产量每小时220双；

FEATURES

- Applied in producing various two/three/four colors children shoes, sport shoes, casual shoes, sandals and multicolor soles.
- Suitable for thermoplastic raw material like PVC、TPR and TPU with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor force and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The electronic control system is quick in respond, less waiting time, more production capacity and less energy consumption.
- The oil pump of the motor is outside placed, causing better cooling effect and longer duration of machine.
- The production output is about 220 pairs/h.

DY-1124B

全自动圆盘式塑胶鞋类吹气注射成型机

Full Automatic Rotary Type Plastic Air Blowing Injection Moulding Machine

主要特点

- 可生产鞋底、拖鞋、凉鞋等各式全塑胶鞋底。
- 本机采用液晶显示器，PLC自动控制，能自动检测，操作方便。
- 原料可循环使用，产品的质感，质轻可媲美新产品。
- 制品经过吹气发泡，使产品质轻、柔软、表面光泽，发泡率可达60%以上。
- 整体式油箱，占地面积少，触控式人机界面，人体工学设计，更具人性化。

FEATURES

- The machine can manufacture various types of plastic & rubber soles for slippers and sandals.
- Use LCD screen, PLC auto-control, automatically detected, easily operated.
- The raw material can be recycled and the quality of the products is nearly equal to new material.
- After blowing and foaming, the product is light, soft and smooth-faced with over 60% foamed rate.
- Intergrated oil tank takes less space. The man-machine interface is easy to operate.

DY-2224B

全自动圆盘式两头双色塑胶鞋类吹气注射成型机

Full Automatic Rotary Type Two Color Plastic Rubber Air Blowing Injection Moulding Machine

主要特点

- 专业生产各类单、双色吹气棉鞋、休闲鞋、混色帮带、吹气迷彩鞋等。
- 适用于生产热可塑性塑胶原料PVC、TPR塑胶发泡、不发泡吹气类。
- 全自动电脑程序控制操作、料量精准，节省人力及时间。
- 本机结构灵巧，机架的设计更适合工人操作。
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能。
- 高性能伺服节能系统，采用进口伺服电机油泵，稳定、耐用，节能效果好。

FEATURES

- Applied in producing various one/two colors mixing cotton shoes, casual shoes, strap, sandals etc.
- Suitable for thermoplastic raw material like PVC、TPR plastic foam,nonfoam blowing class.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The electronic control system is quick in respond, less waiting time,more production capacity and less energy consumption.
- Excellent servo energy saving system,imported servo motor pump has good performan ce in stability, durability and energy-saving effect.

DY-3124C

全自动圆盘式单头三色混色塑胶鞋类吹气注射成型机

Full Automatic Rotary Type Three Color Plastic Air Blowing Injection Moulding Machine

主要特点

- 专业生产各类单、双色、三色混色吹气棉鞋、休闲鞋、混色帮带、吹气迷彩鞋等。
- 适用于生产热可塑性塑胶原料PVC、TPR塑胶发泡、不发泡吹气类。
- 全自动电脑程序控制操作、料量精准，节省人力及时间。
- 本机结构灵巧，机架的设计更适合工人操作。
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能。
- 高性能伺服节能系统，采用进口伺服电机油泵，稳定、耐用，节能效果好。

FEATURES

- Applied in producing various one/two/three colors mixing cotton shoes, casual shoes, strap, sandals etc.
- Suitable for thermoplastic raw material like PVC、TPR plastic foam,nonfoam blowing class.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The electronic control system is quick in respond, less waiting time,more production capacity and less energy consumption.
- Excellent servo energy saving system, imported servo motor pump has good performance in stability, durability and energy-saving effect.

详细参数:

机器型号/Machine model		DY-3124C		以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.	
单元说明	Model	单位unit	数据date		
工位数	Station	station	20/24		
夹模力	Clamping Force	ton	80		
容模尺寸	Mould Dimension	mm	400×320×360		
螺杆直径	Diameter Of Screw	mm	Φ65/60/Φ60		
螺杆直径比	Screw L/D Ratio	L/D	21/20/20		
最大射程	Max.Injection Capacity	mm	195/195/195		
射出压力	Injection Pressure	MPa	96/72.8/72.8		
射出速度	Injection Speed	cm/sec	12.7/16.7/16.7		
螺杆转速	Rotating Speed Of Screw	r.p.m	0~167		
温控段数	Temperature Control	Section	4		
电热功率	Heater Power	kw	9.2×2/6.8		
电机功率	Motor Power	kw	53		
总功率	Total Power	kw	70		
油箱容量	Oil Tank Volume	L	670		
机械重量	Machine Weight	ton	8		
机械尺寸	Machine Dimension(L×W×H)	m	6×4×2.4		

DY-3212B

全自动圆盘式两头三色塑胶鞋底注射成型机

Full Automatic Rotary Type Three Color Plastic Soles Injection Moulding Machine

主要特点

- 专门适于生产制造各类双色、三色、运动鞋底、休闲鞋底，男、女鞋底及拖、凉鞋底等。
- 原料方面适用于生产热可塑性塑胶原料PVC、TPR塑胶发泡、不发泡类。
- 全自动电脑程序控制操作、不须专业人员即可胜任，节省人力及时间。
- 本机结构灵巧，重量轻，机架的设计更适合工人操作。
- 油路电控搭配无间，减少等待时间，生产速度快，提高产量，减少耗能。
- 电机油泵外置、散热效果更佳，从而延长机器的使用寿命。

FEATURES

- Applied in producing various two/three colors soles sport shoes, casual shoes, man/woman shoes, sandals etc.
- Suitable for thermoplastic raw material like PVC、TPR with or without foaming.
- Full automatic intelligent programmed control with low technique requirement for skilled worker. Saving labor and time.
- Compact structure design, light machine weight, the design of machine frame is suitable for operators.
- The electronic control system is quick in respond, less waiting time,more production capacity and less energy consumption.
- The oil pump of the motor is outside placed, causing better cooling effect and longer duration of machine.

DY-1106

全自动六工位水冷圆盘塑胶注射成型机

Fully Automatic Six Station Water-Cooled Disc Plastic Injection Moulding Machine

主要特点

- 专门生产各种热可塑性原料，如PVC、TPE、TPR、TPU等，生产杠铃片，哑铃及汽车坐垫产品；
- 整机采用全电液伺服系统控制，响应快，高效节能；
- 射出均采用电子尺控制料量，计量精度高；
- 整机采用全自动电脑控制，PLC加人机界面，操作简单，亲和性佳；
- 全新自动开模结构，安全可靠，有效降低劳动强度，效率高；
- 采用中央水冷装置系统，冷却时间快；
- 采用全节能伺服系统，节约电量30%以上，油温低。

FEATURES

- Specializes in the production of various thermoplastic materials, such as PVC, TPE, TPR, TPU, etc., and produces products like barbell plates, dumbbells, and car seat cushions
- The whole machine is controlled by a full electro-hydraulic servo system, with fast response, high efficiency and energy saving
- Electronic ruler is used to control the amount of material in the injection, and the measurement accuracy is high
- The whole machine adopts fully automatic computer control, PLC and man-machine interface, simple operation and good affinity
- Brand new automatic mold opening structure, safe and reliable, effectively
- Adopting a central water cooling system, the cooling time is fast
- Adopting a fully energy-saving servo system, saving more than 30% of electricity and low oil temperature

详细参数:

机器型号/Machine model		DY-1106-S	以下数据仅供参考，若因实际设计需求有所变更，恕不另行通知。 The following Data Are Only For Reference, If It Has Change Without Prior Notice.
单元说明	单位unit	数据Date	
容模数	statlon	6	
螺杆直径	mm	Φ105	
注射容量	cm³/shot	9000	
夹模力	ton	400	
射出行程	mm	700	
最小模厚	mm	200	
顶针行程	mm	350	
最大容模尺寸	mm	650x600x470	
平均功率	Kw	35	
机械尺寸	m	7.2*4*3.2	
机械重量	ton	18	
用油量	L	500	

DY-1102

全自动两工位滑板塑胶注射成型机

Fully Automatic Two Slide Plastic Rubber Injection Moulding Machine

主要特点

- 专门生产各种热可塑性原料，如PVC、TPE、TPR、TPU等，生产杠铃片，哑铃及汽车坐垫产品；
- 整机采用全电液伺服系统控制，响应快，高效节能；
